Description

It's an ideal wall to try out one of our four terrific timber prints. They're also equally good at storing homeless bits and pieces, big or small, from here and there.

Its lightweight internal frame is complemented by a steel base and lockable casters, so that it's strong, stable, and maneuverable. Superior noise reduction is achieved with the combination of sustainable, sound absorbing PET and a noise blocking membrane.

It reminds us that even if we work in a concrete jungle, Mother Nature isn't far away.
